Introduction to Outside-In Testing

Richard Warburton
JAVA CHAMPION, AUTHOR AND PROGRAMMER

@richardwarburto www.monotonic.co.uk

Motivation

Testing as a Process

How testing fits into the software lifecycle

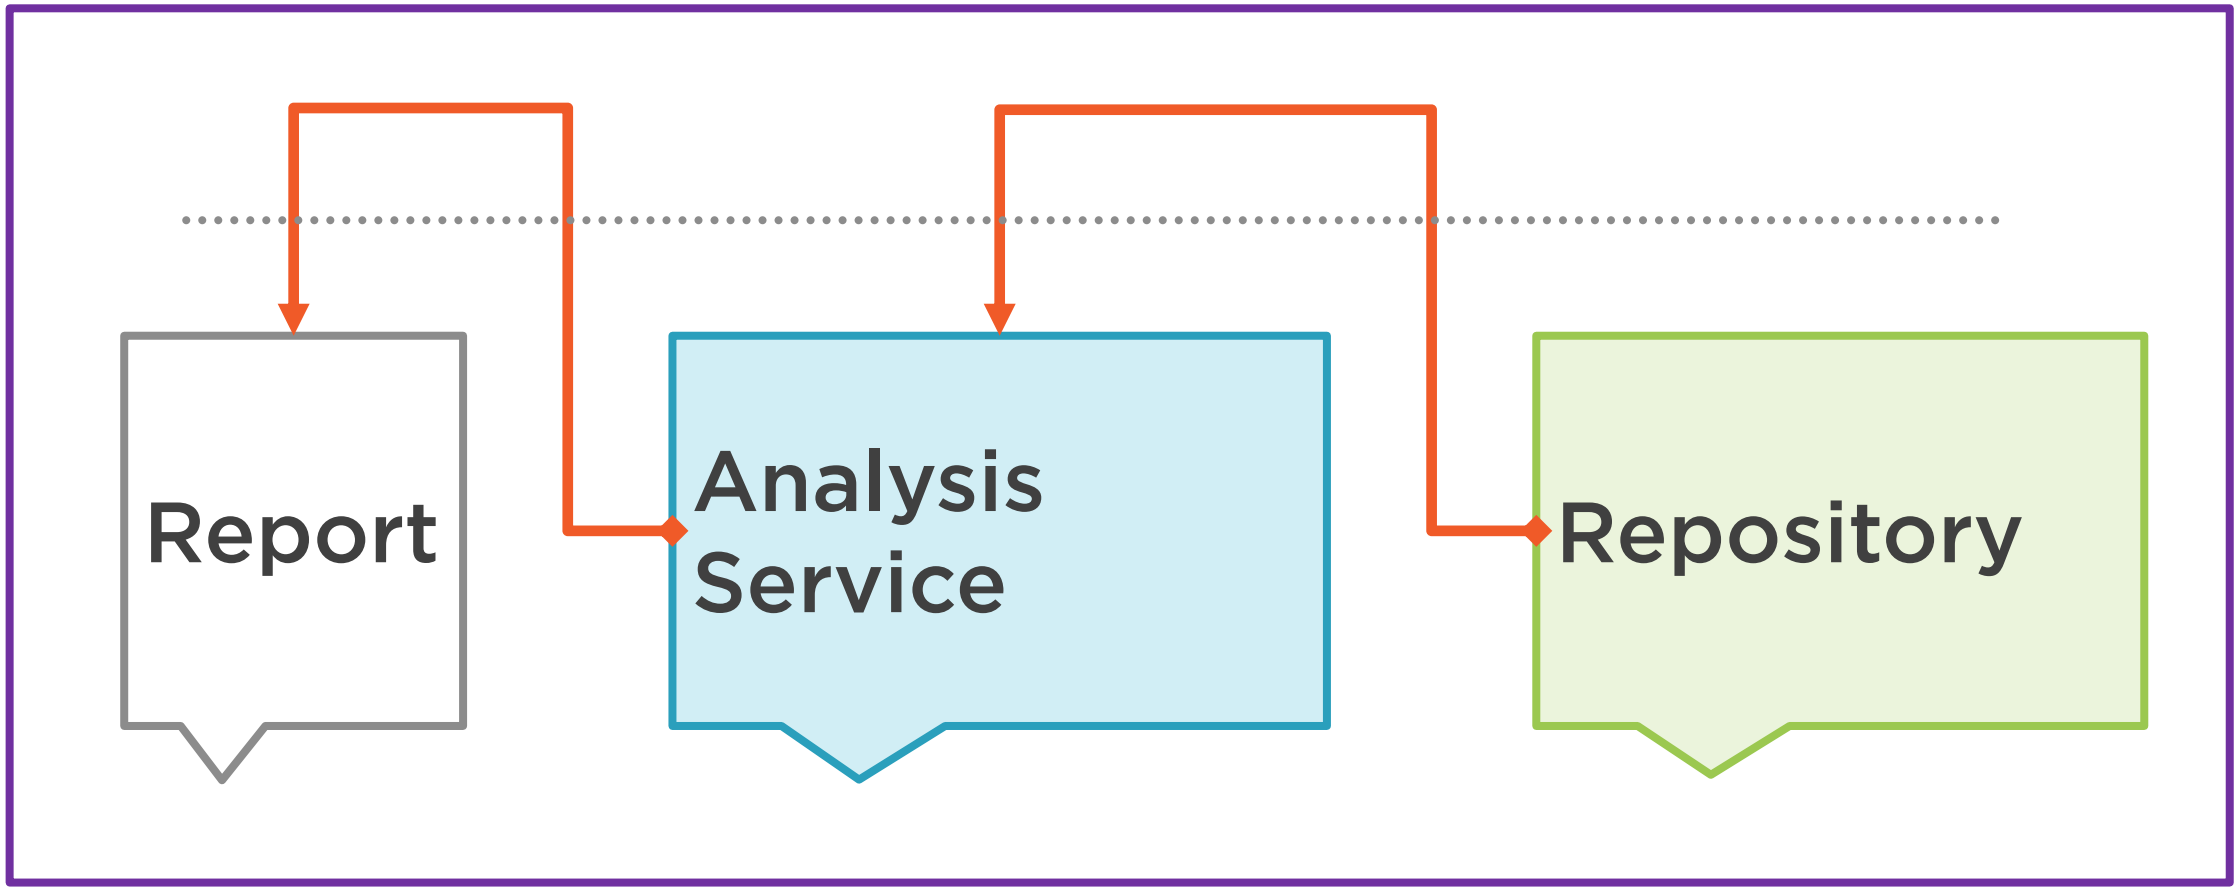
System Tests

How and when should they be written?

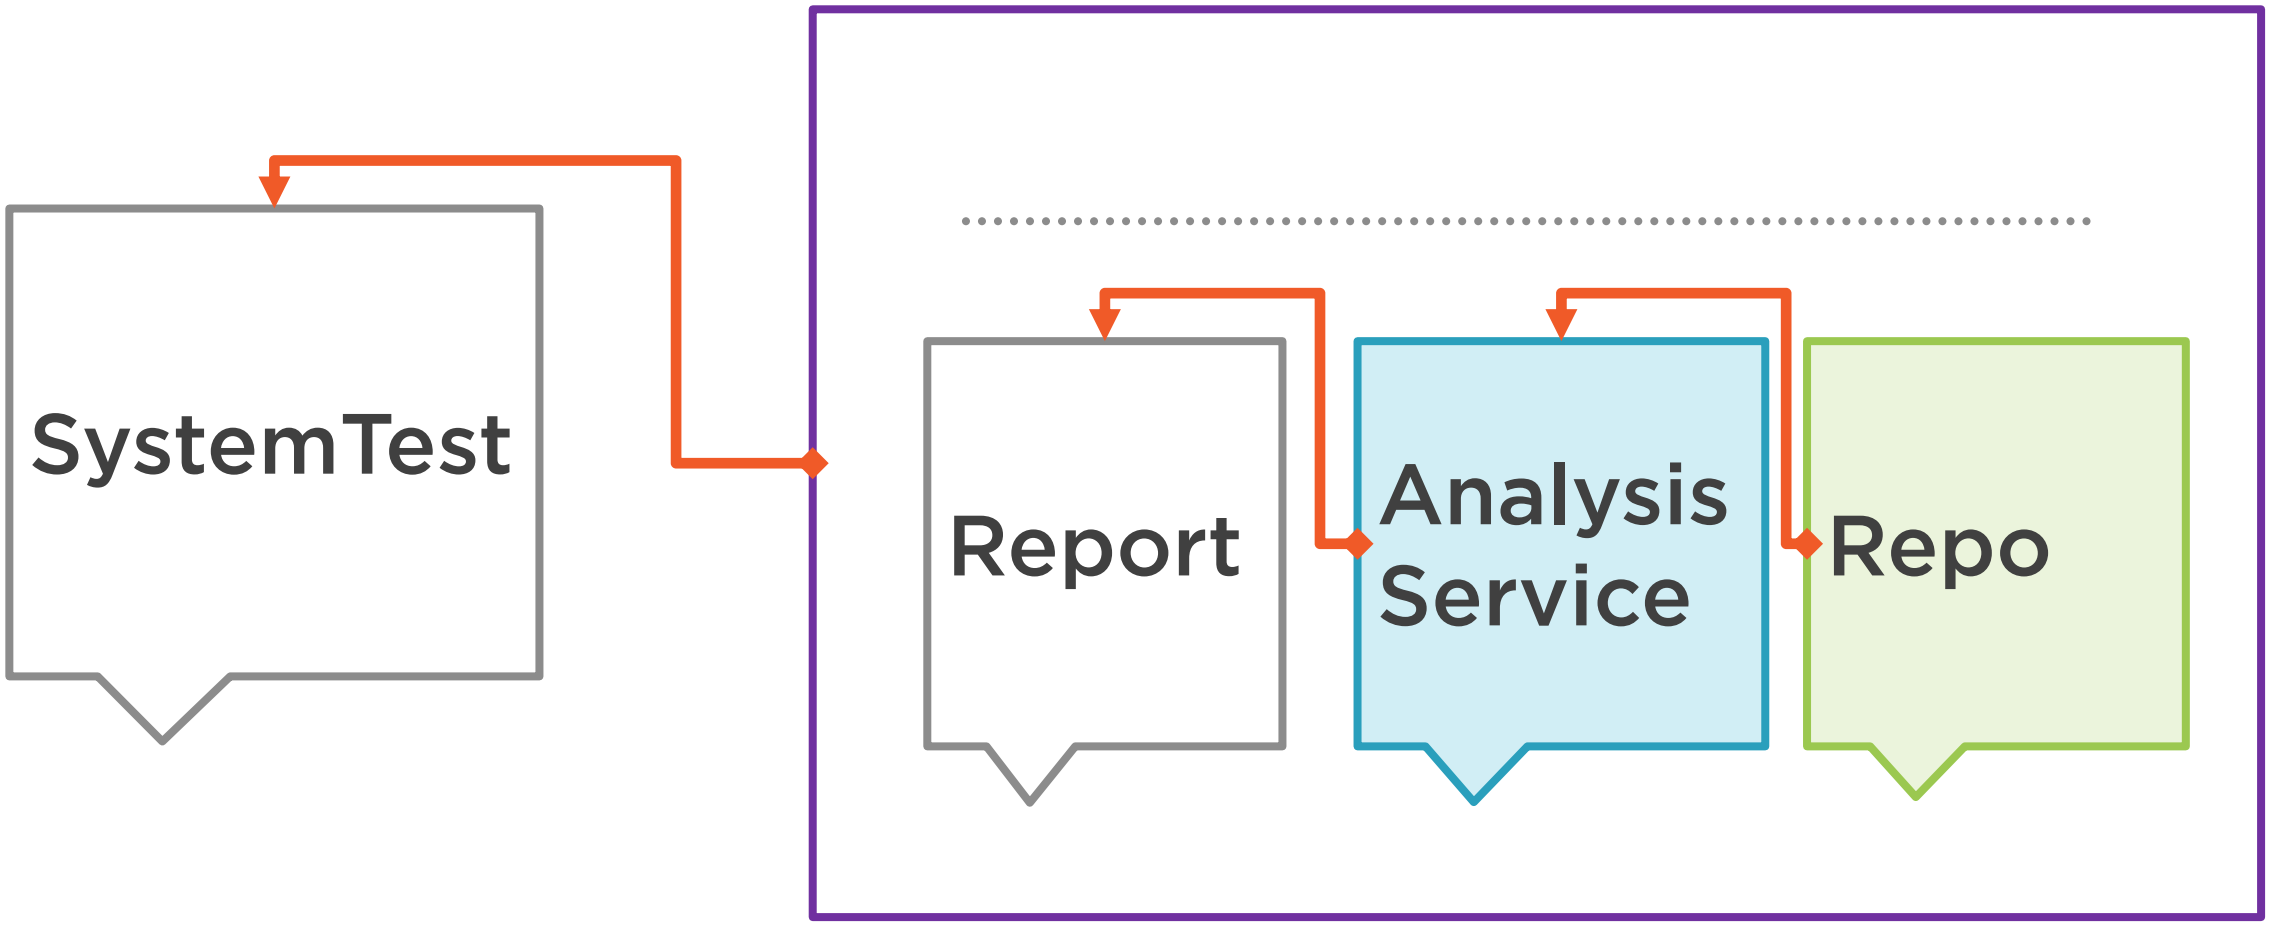
Outside-In

Drive the testing process from high level tests down to implementation details

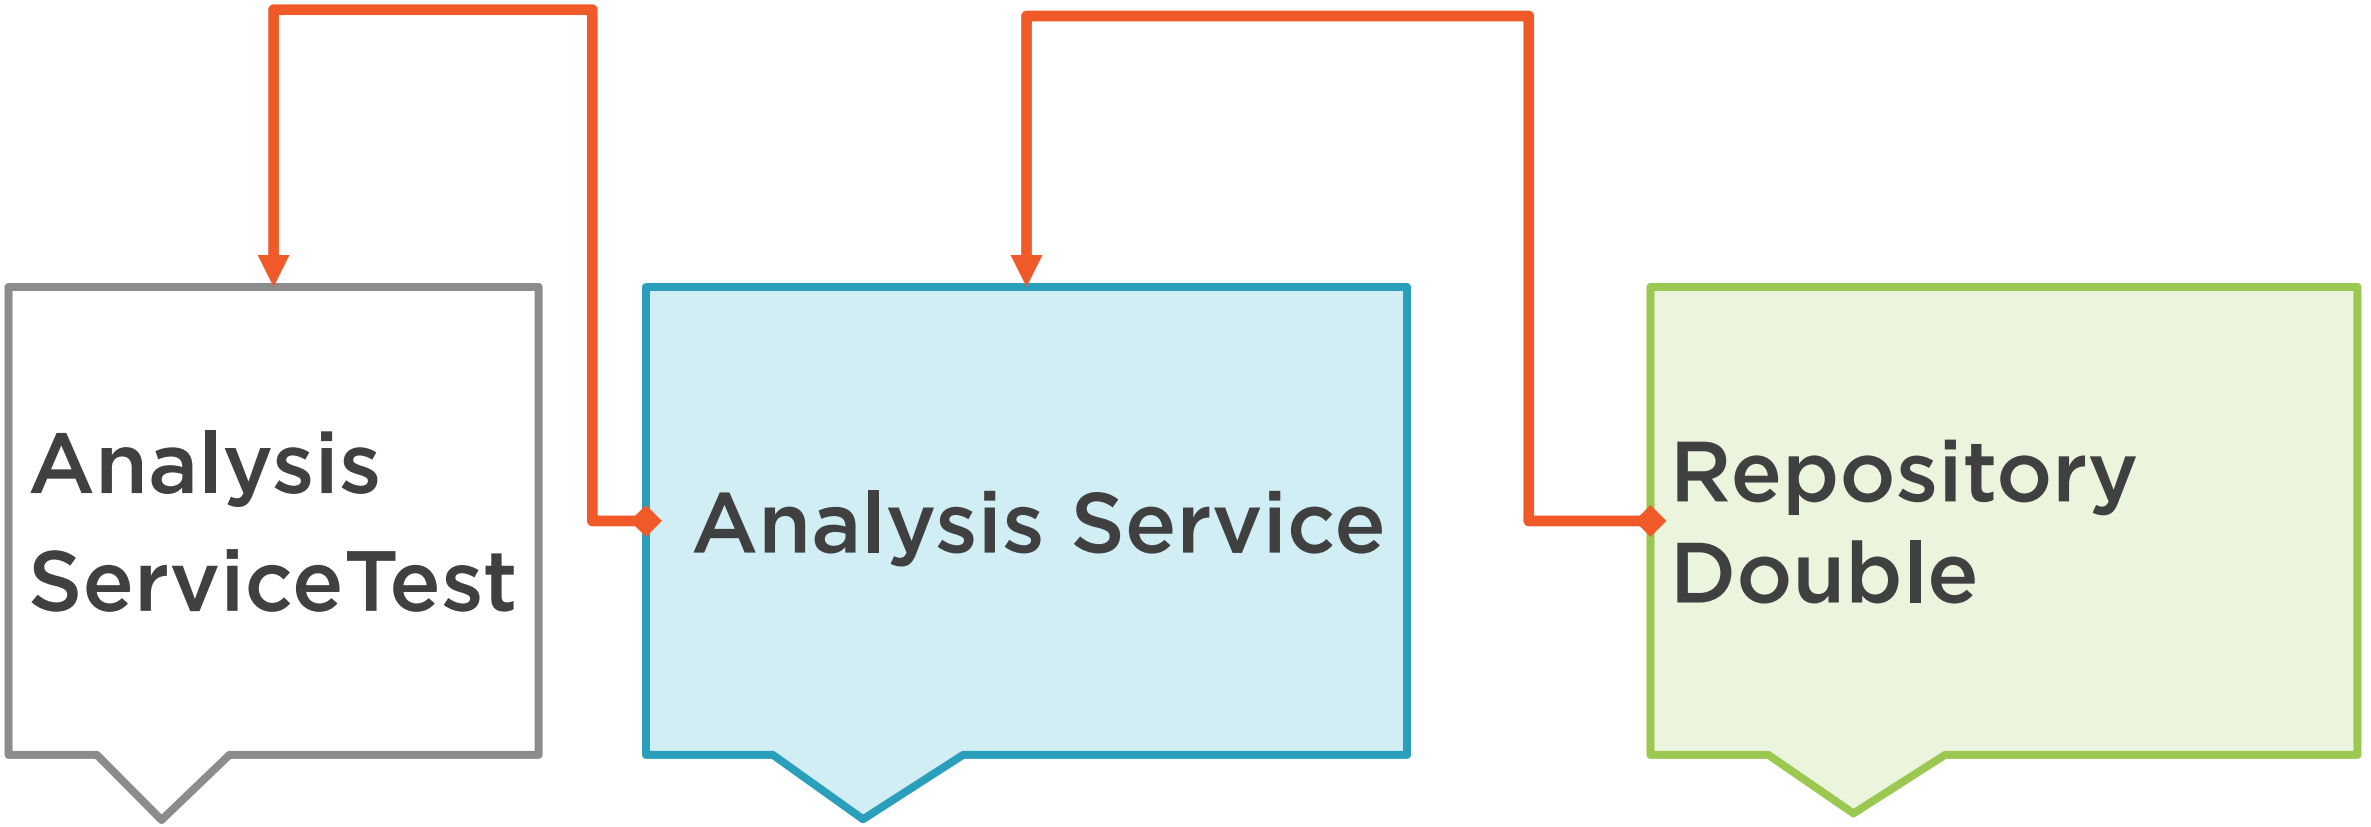
Application Runner



System Test



Unit Test



Analysis ServiceTest
Analysis Service
Repository Double

ApplicationRunner Live Coding

Application Components Live Coding

SalesReport Live Coding

Completing the Application

Conclusions

Course Overview

Testing Code

Writing Good Tests

Introducing Test Drive Development

Testing with Dependencies

Introducing Outside-In Testing
